### PARAMETERS:

1. Only units "equipped" with the F-100 are listed. Those with aircraft on loan or temporarily assigned are omitted.
2. Only squadrons assigned to a parent unit are listed. Squadrons TDY or attached for short periods are omitted, but listed with the parent unit.
3. Months are rounded to years. One month in a year will result in the whole year being listed.
4. There are discrepancies in dates between sources. Where sources disagree, the most prevalent dates are used or the dates "known" to be correct by personal sources are listed.
5. The longest time frames were used. A unit may have been "assigned" another aircraft but still flying the F-100 also, so those dates were considered.

6. Errors are still possible. Please notify Randy Troutman the Super Sabre Society [drtroutman@cox.net](mailto:drtroutman@cox.net) of any errors discovered.
